Professional Summary

React Native Developer with 2.5+ years of experience building scalable, production-grade Android and iOS applications using React Native CLI and TypeScript. Experienced in authentication, REST API integration, Firebase, push notifications, subscriptions, payment gateways, AI-powered features, offline-first architecture, geolocation, Google Maps, performance optimization, and App Store deployment. Strong understanding of reusable component architecture, Redux Toolkit, state management, clean code principles, and cross-functional collaboration to deliver high-quality mobile applications.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Mobile Development: React Native CLI, React.js, Android, iOS, React Navigation

State Management: Redux Toolkit, RTK Query, Context API, AsyncStorage

Networking: REST APIs, Axios, WebSocket, Socket.IO

Authentication: Firebase Authentication, JWT, Google Sign-In, Apple Sign-In

Payments: Stripe, Google Play Billing, Apple StoreKit

Notifications: Firebase Cloud Messaging (FCM)

Maps: Google Maps, Geolocation

Databases: Firebase Firestore, MongoDB, MySQL

Tools: Git, GitHub, Android Studio, Xcode, Firebase Console, Google Play Console, App Store Connect, Postman

Concepts: Offline-first Architecture, Performance Optimization, FlatList Optimization, Memoization, Lazy Loading, Reusable Components, Clean Architecture

Professional Experience

Meander Software Pvt. Ltd.

React Native Developer

Jan 2024 – Present

Mohali, India

- Developed and deployed 8+ production-grade React Native applications for Android and iOS, designing scalable architectures with TypeScript and Redux Toolkit.
- Integrated 50+ REST APIs covering secure authentication, subscriptions, Stripe payments, Firebase, AI modules, and third-party SDKs.
- Implemented advanced features including offline-first architecture, role-based access control, real-time communication, and geolocation.
- Optimized application performance via FlatList optimization, memoization, lazy loading, and efficient state management.
- Managed App Store and Play Store deployments while collaborating in Agile environments with cross-functional teams.

Meander Software Pvt. Ltd.

React Native Intern

Sep 2023 – Dec 2023

Mohali, India

- Developed reusable UI components and integrated REST APIs while working on production client applications.
- Collaborated with senior developers to resolve production issues, optimize performance, and follow scalable coding practices.

Projects

Loosid – Sober Dating Platform

React Native

- Developed authentication, onboarding, profile management, subscriptions, and real-time chat features for a production dating platform.
- Integrated Stream Chat, Apple Sign-In, Google Sign-In, push notifications, image uploads, and secure REST APIs.

– **Tech:** React Native, TypeScript, Redux Toolkit, Firebase, Stream Chat, Stripe iOS — Android

JustSkipLine (Live on Play Store & App Store) Jun 2024 – Present

- Developed a production-ready grocery pickup platform enabling customers to browse products, place online orders, complete secure payments, and collect orders without waiting in queues.
- Implemented secure authentication, Stripe payment integration, push notifications, order tracking, profile management, and scalable REST API communication.
- Improved application responsiveness using Redux Toolkit, reusable components, FlatList optimization, memoization, and lazy loading techniques.
- **Tech:** React Native CLI, TypeScript, Redux Toolkit, Firebase, Stripe, REST APIs, Google Maps, Push Notifications
Android — iOS

Radar – Personalized Content Discovery Platform React Native

- Developed a personalized content discovery platform featuring Read, Scan, and Swipe modes for technical content consumption.
- Implemented offline-first architecture using MMKV caching, personalized feeds, search, bookmarking, and FlatList optimization.
- **Tech:** React Native, TypeScript, Redux Toolkit, MMKV, REST APIs, React Navigation

FoodJojo – AI Meal Analysis & Nutrition Tracking React Native

- Developed an AI-powered nutrition application with meal recognition, camera/gallery integration, and personalized health insights.
- Integrated AI APIs, meal tracking, and premium subscriptions using Google Play Billing and Apple StoreKit.
- **Tech:** React Native, TypeScript, Redux Toolkit, AI APIs, REST APIs, In-App Purchases Android

GPS: Painting Tools – E-commerce Mobile Application React Native

- Developed a cross-platform e-commerce application with product search, wishlist, shopping cart, secure checkout, and order tracking.
- Integrated Stripe payments, user authentication, address management, and optimized API communication.
- **Tech:** React Native, TypeScript, Redux Toolkit, Stripe, REST APIs

Additional Projects

- **SignB:** Real-time communication platform translating speech into sign language using WebRTC.
- **SaberGo (Live):** E-learning platform enabling digital course delivery, authentication, and student management.
- **CAPA:** Enterprise field survey platform with offline-first architecture, GPS tracking, and SMS reporting.
- **PatientPilot:** AI-powered healthcare platform supporting appointments, patient records, and intelligent workflows.
- **RNBusiness:** Business platform providing authentication, analytics dashboard, reporting, and operational workflows.
- **RNAthlete:** Built a collaboration platform connecting athletes with businesses via profile management and interactions.
- **MyCoach:** Finance management application supporting budgeting, expense tracking, insights, and user dashboards.

Education

GNA University, School of Computing and IT
Bachelor of Science in Information Technology CGPA: 8.0

2022 – 2025
Punjab, India
